Invesco Fund Managers Limited is authorised and regulated by the Financial Conduct Authority.  
Revised on 13/02/2020.

---

#### What is this product?

##### Type

Keystone Investment Trust Plc (the "Company") is a UK closed-ended investment trust whose shares are listed on the London Stock Exchange. The Company invests its assets with the aim of spreading investment risk and generating a return for shareholders.

##### Objectives

- The Company aims to provide shareholders with long-term growth of capital, mainly from UK equity investments.
- The Company is actively managed within its objectives and is not constrained by a benchmark.
- The Company borrows money to invest in the stock market within prescribed limits with the aim of enhancing returns.
- The Company may use derivatives (contracts whose value is linked to the value of an underlying investment) with the aim of reducing risk, reducing costs and/or generating additional capital or income.
- The Net Asset Value (NAV) return of the Company corresponds directly to the performance of the securities in which it invests and the income from them. The share price, which will determine the return to the investor, will also be affected by supply and demand. Consequently, the return to the investor may be higher or lower than the underlying NAV return.
- At any given time, the price you pay for a share will typically be higher than the price at which you could sell it.

##### Intended Retail Investor

The Company is intended for investors aiming for long term capital growth who may not have specific financial expertise but are able to make an informed investment decision based on this document, the AIFMD investor information document and most recent Annual and Half-Yearly Financial Reports, have a risk appetite that is consistent with the risk indicator displayed within this document and understand that there is no capital guarantee or protection (100% of capital is at risk).

##### Term

The Company does not have a fixed life and can only be wound up with shareholders' consent.

## What are the risks and what could I get in return?

### Risk indicator

The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets.

We have classified this product as 4 out of 7, which is a medium risk class. This figure rates the likelihood of losing money in the future at a medium risk level.

This product does not include any protection from future market performance so you could lose some or all of your investment.

The product may invest to a limited extent in private and unlisted equities which may involve additional risks such as lack of liquidity and concentrated ownership. These investments may result in greater fluctuations of the value of the product.

The use of borrowings may increase the volatility of the NAV and may reduce returns when asset values fall.

The product invests in smaller companies which may result in a higher level of risk than a product that invests in larger companies. Securities of smaller companies may be subject to abrupt price movements and may be less liquid, which may mean they are not easy to buy or sell.

The product uses derivatives for efficient portfolio management which may result in increased volatility in the NAV.

A more detailed description of risk factors that apply to this product is set out in the latest Annual Financial Report.

### Performance scenarios

Investment £10,000

		1 year	3 years	5 years Recommended holding period
<b>Stress scenario</b>	<b>What you might get back after costs</b>	£6,116	£6,324	£4,995
	Average return each year	-38.84%	-14.17%	-12.96%
<b>Unfavourable scenario</b>	<b>What you might get back after costs</b>	£8,677	£8,052	£7,758
	Average return each year	-13.23%	-6.97%	-4.95%
<b>Moderate scenario</b>	<b>What you might get back after costs</b>	£10,234	£10,714	£11,217
	Average return each year	2.34%	2.33%	2.32%
<b>Favourable scenario</b>	<b>What you might get back after costs</b>	£12,063	£14,249	£16,210
	Average return each year	20.63%	12.53%	10.14%

Market developments in the future cannot be accurately predicted. The scenarios shown are only an indication of some of the possible outcomes based on recent returns. Actual returns could be lower.

This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest £10,000. The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.

The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment.

The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.

The figures shown include all the costs of the product itself. The figures do not take into account your personal tax situation, which may also affect how much you get back.

### What happens if Invesco Fund Managers Limited is unable to pay out?

The assets of the Company are entrusted to The Bank of New York Mellon (International) Limited (the "Depositary"). If Invesco Fund Managers Limited encounters financial difficulties these assets will not be affected. If financial instruments are lost, the Depositary (or its delegates), are generally required to return equivalent assets/value to the Company. If the Depositary (or its delegates) encounter financial difficulties, the Company could suffer a loss in some circumstances. As a shareholder you will not be able to make a claim against the Company or the PRIIP Manufacturer under the Financial Services Compensation Scheme.

### What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the product itself, for three different holding periods. The figures assume you invest £10,000. The figures are estimates and may change in the future.

### Cost over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs and show you the impact that all costs will have on your investment over time.

### Investment £10,000

Scenarios	If you cash in after 1 year	If you cash in after 3 years	If you cash in at the end of 5 years
<b>Total Costs</b>	£205	£657	£1,170
Impact on return (RIY) per year	2.05%	2.05%	2.05%

### Composition of costs

The table below shows:

- the impact each year of the different types of costs on the investment return you might get at the end of the recommended holding period;
- the meaning of the different cost categories.

### Impact on return per year

<b>One-off costs</b>	Entry costs	0.00%	The impact of the costs you pay when entering your investment.
	Exit costs	0.00%	
<b>Ongoing costs</b>	Portfolio transaction costs	0.32%	The impact of the costs of us buying and selling underlying investments for the product.
	Other ongoing costs	1.53%	
<b>Incidental costs</b>	Performance fees	0.20%	The impact of the performance fee. We take these from your investment if the product outperforms its benchmark by more than 1.25%.
	Carried interests	n.a.	

### How long should I hold it and can I take my money out early?

#### Recommended holding period: 5 years

We have selected 5 years as the product invests for the long term.

You can sell some or all of your investment directly through a stockbroker, an execution-only dealing service or if you invest through a provider of packaged products, that provider, on any business day.

If you sell some or all of your investment before 5 years the product will be less likely to achieve its objectives however, you will not incur any additional costs by doing so.

### How can I complain?

You should contact the Head of our Contact Centre at Invesco, PO Box 11150, Chelmsford, CM99 2DL, UK.

### Other relevant information

The investor information document required under AIFMD provides you with key information about the product which you are advised to read so you can make an informed decision about whether to invest. This document together with the Annual and Half-Yearly Financial Reports, Company Announcements and other information is available on [www.invesco.co.uk/investmenttrusts](http://www.invesco.co.uk/investmenttrusts).
